If you are a **legal resident of California**, the state requires you to complete an Income Tax Withholding Election Form for all distributions that you receive from TIAA-CREF. If you do not return the withholding form, the state tax default rate will apply.

Payments that are directly rolled over to an IRA or another retirement plan are not subject to state income tax withholding. Therefore, if your payments are being rolled over, no further action is required.

For cash payments ONLY, please keep in mind:

1. There may be penalties for not paying enough state income tax during the year, either through withholding or estimated tax payments.
2. State tax withholding rates are subject to change.
3. State withholding calculated must be at least \$10 in order for California income tax to be withheld.

CALIFORNIA WITHHOLDING RULES

Rollover Eligible Payments are payments that can be directly rolled over to an IRA or a similar retirement plan. These include certain types of Single Sum cash withdrawals and the following periodic payments: Interest Payments, Annuity Certain Options paid over a period of less than 10 years, and Transfer Payout Annuities issued after October 31, 2001.

Non-Rollover Eligible Payments are payments that cannot be directly rolled over to an IRA or a similar retirement plan. These include Minimum Distribution Options, certain types of Single Sum cash withdrawals and the following periodic payments: all life annuities, Annuity Certain Options paid over a period of 10 years or more, and Transfer Payout Annuities issued before November 1, 2001.

For cash payments, the following tax withholding rules apply:

1. You can elect a fixed percentage of the taxable amount of the payment.
2. You can elect a flat dollar amount.
3. If you do not make a state election, state withholding will be withheld at the default rate of 10% of the federal income tax withholding.
4. You **CAN** select the option "Do not withhold."
