IMPORTANT INFORMATION

Investing in this fund involves a number of risks. An investment in securities of larger companies carries with it the risk that the company (and its earnings) may grow more slowly than the economy as a whole or not at all. Although the fund attempts to closely track the investment performance of its benchmark index, it does not duplicate the composition of this index. The fund's performance, unlike that of its index, is affected by investment and operating expenses. There is no guarantee that the performance of the fund will match that of its index for any period of time. For a detailed discussion of risk, consult the prospectus.

EXPENSES

Expenses are an important aspect of investing. To pay for the operation and management of a fund, each investor is charged an expense fee, which is calculated as a percentage of the amount the investor has in the fund. Even if the fund loses money during a period, the fee is still charged. Although an annual expense fee may seem relatively small, its effect on performance over time can be substantial. TIAA-CREF has some of the lowest expense charges in the industry.*
