IMPORTANT INFORMATION

Investing in this fund involves a number of risks. Value investing may fall out of favor with investors and includes the risk that a security may be appropriately priced or overpriced when acquired, or that its potential value may never be recognized by the market. An investment in securities of larger companies carries with it the risk that the company (and its earnings) may grow more slowly than the economy as a whole or not at all. The fund may invest in foreign securities, which involve special risks, including currency fluctuation and political and economic instability. For a detailed discussion of risk, consult the prospectus.

EXPENSES

Expenses are an important aspect of investing. To pay for the operation and management of a fund, each investor is charged an expense fee, which is calculated as a percentage of the amount the investor has in the fund. Even if the fund loses money during a period, the fee is still charged. Although an annual expense fee may seem relatively small, its effect on performance over time can be substantial. TIAA-CREF has some of the lowest expense charges in the industry.*
